donate at least $10,000, or $5,000 more than the

previous two years, to the fund by June 30, 1985. The challenging foundation would then grant an-

other $3,000, bringing the total to $12,000 for dis-

tribution to qualified M Ks during the 1985-1986 academic year.

In the first three months of this fiscal year, alumni have responded already by giving over $5,600,153 more than the $3,493 received through the same period last year.

More than fifty students have received benefits from the fund in its six-year history. Five graduates received benefits all four years at Bryan. Nine of the M Ks were second generation students. With the additional dollars brought in by the challenge grant, each qualified M K will receive more significant amounts of aid.

Financial support of M Ks ministers to mission-
